Common-state classical replay minus recorded QAOA
2 × 2 source trajectories
Mean energy-gap difference
95% CI of mean difference
Mean difference
Trajectory difference
QAOA source-trajectory seed
2 × 2 source trajectories
Recovery difference (percentage points)
QAOA source-trajectory seed
3 × 3 source trajectories
Mean energy-gap difference
QAOA source-trajectory seed
3 × 3 source trajectories
Recovery difference (percentage points)
QAOA source-trajectory seed
20 paired trajectory summaries per grid; each averages 3 classical replays per state.
Bands: pointwise 95% paired trajectory-cluster bootstrap CIs of the mean, not prediction intervals.
